

Glenville Pond, King

Acreage: 23 Acres
Price: \$2,750,000.00

Glenville Pond, King

Glenville Pond is a noted location in King for a modernist home designed by John Vanstone, a well-known Canadian architect. The home blends into the landscape and is placed on a woodland ridge high above Glenville Pond. The craftsmanship and materials including BC cedar would be hard to replicate today. The home is centrally located on the 23+acre parcel of land which has mature woods, rolling lawns and the large Glenville mill pond. The location is convenient to Newmarket & Aurora being just 3 minutes east of Yonge Street.

Foyer

- 2-storey entrance with closet and 2-piece powder room
