□ Hand-painted custom vanity

WALK-OUT LOWER LEVEL:

The lower level is a large U-shaped room with walk-out to the back yard. The space is currently configured as 2 offices, but could easily be another bedroom and a recreation room. Stone fireplace. Also on this level are a 2nd laundry, workshop and 2 cold rooms/storage rooms.

OUTBUILDINGS

There are 3 outbuildings on the property □ a fully insulated work shop, a drive shed and a garden shed. The board and batten work shop has two power doors, tool storage cabinets and large work areas. The workshop is positioned on the north side of the circular paved driveway. Poured concrete foundation with board and batten and shingle siding. Certainly not your average workshop!
