MAIN FLOOR

Front Hall

The front hall of this home has soaring ceilings, double coat closet plus a powder room. The front entrance enjoys wonderful light through both east and west facing windows.

Front Porch

Designed in the style of homes of a bygone era, the extra deep porch is a favorite sitting area of the home offering views over the pool and the rolling hills of the Oak Ridges Moraine.

Dining Room

The proportions and orientation of each room of the home are superb. The dining room offers both east and west views accented by landscape lighting. The lighted corner cabinets, beamed ceiling, double-height doors all contribute to the country elegance of this much used dining room of Hidden Hill.

Kitchen and Great Room

This is a room you will not want to leave. The floors, like so many in this Massey estate, are century old hemlock floors reclaimed from the historic Krug Furniture Company of Kincardine, Ontario. The counters of Carrerra marble were expertly fitted to the custom crafted breakfast bar built of solid cherry along with the 2-storey cabinetry. The relaxed elegance and sense of history is found everywhere you look in this room. In fact, even the bar rail has a story! The bar rail was originally built for "Vines", Canada's first wine bar. Attached to the upper cabinets, is a rolling ladder which was sourced from Library Champlain in Quebec. The fine details such as these are found throughout the home.

The massive ceiling heights, the raised hearth, 2-storey fireplace, and distant views make this room a truly captivating space for the family to share.

Double Office
