The home was crafted over a 3-year period (1994-1996) using reclaimed materials from across Canada and with select materials also being sourced in Europe. Since the original build, the home has undergone another transformation more recently with a new floor plan, new bathrooms and updated kitchens on both the lower level and main level. There are now 3 finished levels including a full in-law or guest suite with its own kitchen and walk-out on the lower level.

2-Storey Foyer

The impressive 2-storey foyer provides access to the main hall, living room and family room. The combination of the historic materials used including the exposed brick wall, wide-board floors, wood paneling, massive staircase all create a wonderful sense of history.

Living Room (5.73 m x 4.6 m)

The expansive living room has views over the pond and has a tasteful design centred around the wood burning fireplace. The hand-carved fireplace mantel and surround is more than a century old. Along the south wall is a built-in bar area.

Family Room (7.04 m x 5.42 m)

Perhaps one of the favorite rooms in the home is the casual family room with antique fireplace, beamed ceiling and the space is open to the kitchen and dining room. This is a wonderful design for entertaining.

Kitchen (5.85xm x 2.56 m)

The kitchen has massive windows, custom cabinetry and high-end appliances plus a large centre island with additional prep sink and breakfast bar.

Breakfast Room

Alongside the kitchen is a curved breakfast room with beamed ceiling, countryside views and wide-board floors.

Dining (5.09 m x 4.23 m)

The dining room has a built-in sideboard, beamed ceilings, wide-board floors and is open to the kitchen. The room has lovely views and has a direct walk-out to the south deck.

Den (5.21 m x 4.81 m)

What a wonderful room to enjoy a good book or have a small gathering. The panelling and design details in this room are exceptional. Built-in shelving, panelled walls and ceiling details showcase the attention to detail found throughout the home. The den opens to the large deck which offers sunset views and a large outside dining space.

Mud Room/Powder Room

Just off the garage and back entrance is the mud room with storage space and a well-located 2-piece powder room.
